

Parker Kitchen offers a huge choice

THE MARQUE OF QUALITY

Parkers' kitchen design centre in Diplocks Way, Hailsham offers the best state-of-the-art designer ranges of kitchens, but at impressively affordable prices to suit most budgets.

Our experienced design team are now under the management of the talented Matt Hollamby and Caroline Horscroft and they are able to create the ideal kitchen for using the latest CAD design technology which offers you the unique opportunity of seeing your kitchen being created and tweaked on screen until it is exactly as you want it.

We have brought together two of the country's leading manufacturers, Symphony and PWS, whose ranges are normally associated with boutique-style outlets.

In addition to our range of **52 carcass colours, 120 door styles, and over 200 worktops**, we also offer a comprehensive choice of appliances, taps, sinks, extractors, stylish lighting, underfloor and skirting level heating and a range of finishing touches from ice makers and wine coolers to waste disposal units and drop down TVs.

Come and see our Kitchen Centre at Hamblins, Diplocks Way, Hailsham, East Sussex BN27 3JF and meet Matt Hollamby and Caroline Horscroft (pictured above)
