

Parkers feature at Chamber of Commerce event

**DOING THE BUSINESS
 IN EASTBOURNE**

For the third year running, Parker Building Supplies turned out in force at this year's Let's Do Business exhibition at the Winter Garden, Eastbourne at the end of June.

We were delighted to meet so many existing and new customers at this excellent business-to-business event, which is organised annually by Let's do Business in

partnership with Eastbourne & District Chamber of Commerce.

The show provides an exciting and vibrant business-to-business event for business owners, directors and entrepreneurs from across Sussex, and on this occasion featured over 120 exhibitors all offering creative and innovative solutions for SME's (Small to Medium Sized Enterprises). Let's Do Business enables businesses to network with like-minded individuals, showcase their products and services and source products and services from a wide range of local businesses, (including our branch in Moy Avenue).

Eastbourne & District Chamber of Commerce (EDCC) is an organisation owned by East Sussex businesses which exists to advance the economic prosperity of the region and to promote its Members' interests. It provides independent advice and information on a variety of subjects; lobbying government on issues affecting members; and offers networking opportunities and seminars to build business connections.

Many thanks to everyone who came to see us at the exhibition.

Ian Dear (above) and other Parkers staff on hand to help customers visiting our displays at Let's Do Business 2010
