

PRESS RELEASE

Our ongoing commitment to forge links with local schools and colleges has continued with groups of students from both Uckfield Community College and Harlands Nursery School visiting our Head Office and training facility and the local branch during March. The scheme was originally trialled at our Eastbourne branch and is to be continued and extended throughout the Company.

If you know of a local youth organisation, school or college who would benefit with a link to Parker Building Supplies, please contact Karen at Head Office on 01825 748400.

Message to editors, further details can be obtained from Stewart Pierce on 01825 748401 or email stewartp@parkerbs.com
