

HANG ON FOR LP SOLIDSTART JOIST CONNECTORS

PARKERS INTRODUCE LARGER RANGE OF STRONG-TIE PRODUCTS

Parkers' range of Simpson Strong-Tie Joist Connectors has been extended to include hangers, straps and seals to suit LP SolidStart 225i.

The range includes the new **Multi Joist Connector** from Simpson Strong-Tie allows multiple joists to be joined together to form a stronger single unit. It's quick and simple to install and one size fits all.

The **Masonry Joist Hanger** is a one piece non-welded joist hanger for supporting timber joists, beams and trussed rafters. Built in inspection slot at the base of the hanger makes inspection from the ground much easier.

The range also features ...

Backer Free Hangers, which eliminates the need for backer blocks when supported from an I-joist header.

Face Fix I-Joist Hangers are face mounted for supporting 35mm LSL from an LSL header.

Top Flange I-Joist Hangers support I-joists from timber members.

Face mounted I-Joist Hanger support I-joists from timber members.

Slotted Z-Clips allow I-joists or solid sawn timber to be used as noggings between joists to support floor decks or partitions.

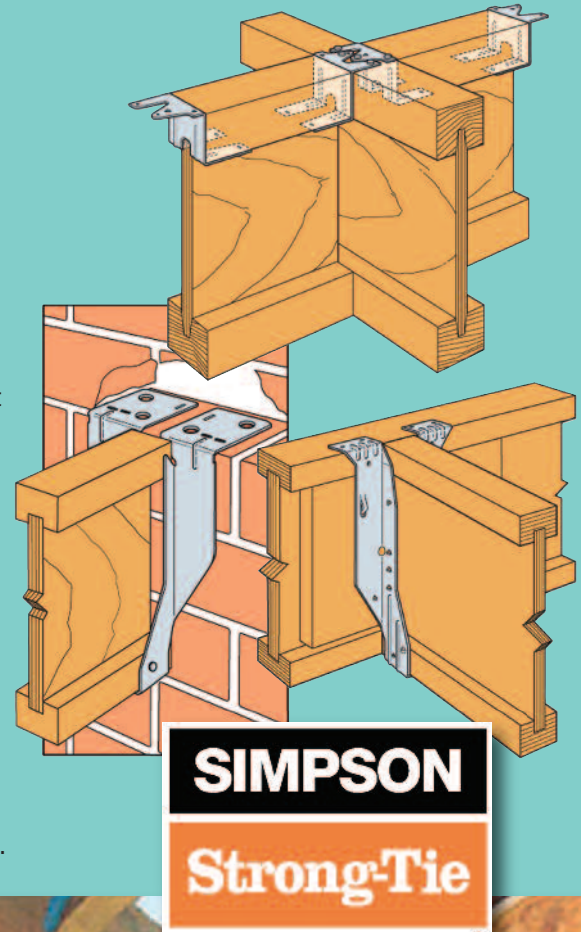

Masonry Joist Hangers support I-joists and beams from masonry walls.

Folded Mini Straps are horizontal restraint strap that provides restraint at every joist. For use with joist spacings up to and including 600mm c/c.

Simpson End Seals are designed to be used where I-joists are built into masonry walls, to help solve air leakage problems associated with shrinkage of timber and masonry.

The **Engineered Restraint Strap** replaces the traditional 5mm heavy restraint strap. Being only 1.5mm thick it allows the strap to span over the top of the joists without the need for notching.
